

# Christian Poveda-Ruiz

PHYSICIST · DATA SCIENTIST

☎ (+57) 305-771-98-32 | ✉ christianpoveda@protonmail.com

## Education

### Universidad de los Andes

M.Sc. IN INFORMATION ENGINEERING

Bogotá, Colombia

2016 - Present

### Universidad de los Andes

B.S. IN MATHEMATICS

Bogotá, Colombia

2012 - Present

### Universidad de los Andes

B.S. IN PHYSICS

Bogotá, Colombia

2011 - 2016

## Experience

### Universidad de los Andes

GRADUATE ASSISTANT

Bogotá

February 2018 - Present

### Rappi inc.

DATA SCIENTIST FOR OPERATIONS

Bogotá

June 2017 - February 2018

- Co-designer of the A / B testing platform used on the CPGs search engine.
- Introduced human search quality rating into the Quality Assurance process for the CPGs search engine.
- Development of a predictive model to estimate the time of payment of a debt acquired by a domiciliary. Based on this, the concept of "reliable domiciliary" in operations was redefined.
- Development of a data pipeline to monitor the distribution of supply and demand in near real time.

### Alianza CAOBA

GRADUATE RESEARCH ASSISTANT

Bogotá

July 2016 - August 2017

- Development of an interactive web application to allow monitoring of the state of the public transport service in Rio de Janeiro.
- Study on traffic and mobility in order to characterize traffic accidents according to their causes in different areas of Bogotá.
- Study on taxes of urban delineation and characterization of taxpayers in order to detect anomalous declarations of constructions in Bogotá.

## Publications

### Quantifying and controlling biases in estimates of dark matter halo concentration

*The Astrophysical Journal*, 832, 2

C. N. POVEDA-RUIZ, J. E. FORERO-ROMERO, AND J. C. MUÑOZ-CUARTAS

November 30, 2016

## Teaching

2018 **Professor**, Discrete Mathematics and Logic

Uniandes

2016 **Teaching Assistant**, Computational Methods for Physicists

Uniandes

2016 **Teaching Assistant**, Computational Tools for Scientists

Uniandes

2015 **Instructor**, Integral Calculus with Differential Equations

Uniandes

2015 **Teaching Assistant**, Electromagnetism II

Uniandes

2014 **Teaching Assistant**, Computational Methods for Physicists

Uniandes

2013 **Teaching Assistant**, Computational Methods for Physicists

Uniandes

2011 **Teaching Assistant**, Algorithmics and Object Oriented Programming I

Uniandes

## Events

---

2017	<b>Assistant</b> , Tendencias en Big Data y Analytics (Pontificia Universidad Javeriana)	<i>Bogotá, Colombia</i>
2016	<b>Scholarship Assistant</b> , XXIV Escuela de Verano en Física (Universidad Nacional Autónoma de México)	<i>México, México</i>
2016	<b>Scholarship Assistant</b> , First Mexican AstroCosmoStatistics School (Universidad de Guanajuato)	<i>Guanajuato, México</i>
2013	<b>Oral Presentation</b> , IV Congreso Colombiano de Astronomía (Universidad de Nariño)	<i>Pastó, Colombia</i>
2013	<b>Assistant</b> , Assistant at Workshop de Astronomía (Universidad de los Andes)	<i>Bogotá, Colombia</i>
2013	<b>Assistant</b> , Quinta Escuela de Física Matemática (Universidad de los Andes)	<i>Bogotá, Colombia</i>
2010	<b>Assistant</b> , Workshop on Physics and Technology at CERN (Universidad Nacional de Colombia)	<i>Bogotá, Colombia</i>

## Programming

---

- As a general purpose programming language.
  - Experience using Numpy, Pandas and PySpark for data processing.
  - Experience using Scikit-learn and Tensorflow for machine learning.
  - Experience using Flask and Unicorn for backend web development.
- Python**
- Mainly for optimizing specific tasks in scientific programming.
  - Experience writing Python modules over CPython.
- C**
- As a fast development programming language.
  - Experience developing web applications using Echo and Gorilla/Mux.
- Go**
- For Systems Programming in several contexts.
  - Experience developing basic web applications.
  - Experience writing embeddable modules for Python.
  - Done small contributions to Rust related projects like Servo, Cargo and Rust itself.
- Rust**
- Experience using ReactJS for frontend web development.
  - Developed interactive dashboards for near real-time monitoring.
  - Basic knowledge of D3.js for Data visualization.
- Javascript**
- As a general purpose programming language.
  - Some experience using Hadoop for data processing.
- Java**
- As a general purpose programming language.
  - Experience writing concurrent applications using OTP.
  - Some experience writing ETL tools.
  - Some experience using Plug for backend web development.
- Elixir**
- Experience using Git for VCS.
  - Experience using Docker to deploy microservices and other applications.
  - Experience using Redis for real-time data processing.
- Others**
- Experience using PostgreSQL.
  - Experience using MongoDB including its geospatial features.
  - Experience using InfluxDB and connecting it with Grafana for time series analytics.
  - Proud Linux user since 2010.
